

ENVIRONMENTAL POLICY

Protection of the environment is part of Community Cleans values and principles and we consider it to be sound practice. Care for the environment is one of our key responsibilities and an important part of the way in which we do business.

Community Clean's arrangement to protect the environment will be put in place at all workplaces by operating under the ISO 14001 Environmental Management system including:

- § Complying with all applicable legislation, regulations, approved codes of practice and other requirements ie customer requirements
 - § Protecting the environment by striving to prevent and minimise our contribution to pollution of land, air, and water
 - § Seeking to keep wastage to a minimum and maximise the efficient use of materials and resources;
 - § Managing and disposing of all waste in a responsible manner, including reuse eco-friendly materials and recycling
 - § Providing training for our staff so that we all work in accordance with this policy and within an environmentally aware culture,
 - § Regularly communicating our environmental performance to our employees and customers / public if requested
 - § Developing our management processes to ensure that environmental factors are considered during planning and implementation
 - § Monitoring and continuously improving our environmental performance.
