

NEW Wall Wrap System

As well as our cleaning and painting expertise, we also offer innovative and cost-effective wall wrap systems. A full colour wall wrap system that can be used to “decorate” any wall, with any high quality image - limited only by your imagination.

Utilise any space to attract attention and get your message across. This system will transform those unsightly, dark and dreary walls into magnificent pieces of art. If you are looking for a complete refurbishment project we can offer numerous options to transform any location.

Our wall wrap system provides the opportunity to show the community what is happening locally, ideal for regeneration projects and promoting positive community messages whilst lowering on-going maintenance costs.

The speedy application minimises disruption on site and makes it easy to change periodically. We have full maintenance packages available and the opportunities to publicise and advertise are endless, promoting awareness, culture, diversity and creativity.

Our surveyors will visit the site to assess the area and our graphics team are on hand to help you decide on suitable images and help turn your artwork into effective wall graphics to give maximum impact.

Key benefits:

- **Approx 30% cost saving over traditional painted murals**
- **The film can be printed with any photo quality design**
- **Over laminated with an anti-graffiti film so graffiti can be wiped away**
- **The system is class 0 fire rated and is designed to be non-flammable**
- **This system will last at least 5 years (potentially a lot longer in a subway environment)**
- **It can be applied to any wall - takes up the contours of the surface, effectively shrink wrapping it**
- **Individual panels can be removed and replaced, very quickly**

Before

After

Whatever the size of the project, we make sure the installation runs on time and on budget.
